

# Full Range of **EURO IV & V** SILENCERS IN STOCK

As European authorities tighten their grip on exhaust emission from all types of vehicles, spare part suppliers need to follow suit. We are happy to introduce an extensive range of Euro VI & V products that completes your offering. Our products match OE criteria and can be used as full replacement of the original parts. We offer a complete range of solutions for Euro IV and Euro V trucks. The emission-control silencers for these vehicles require compliance on PM (Particle Mass) and NOx reduction in addition to compliance on noise reduction and back pressure levels.

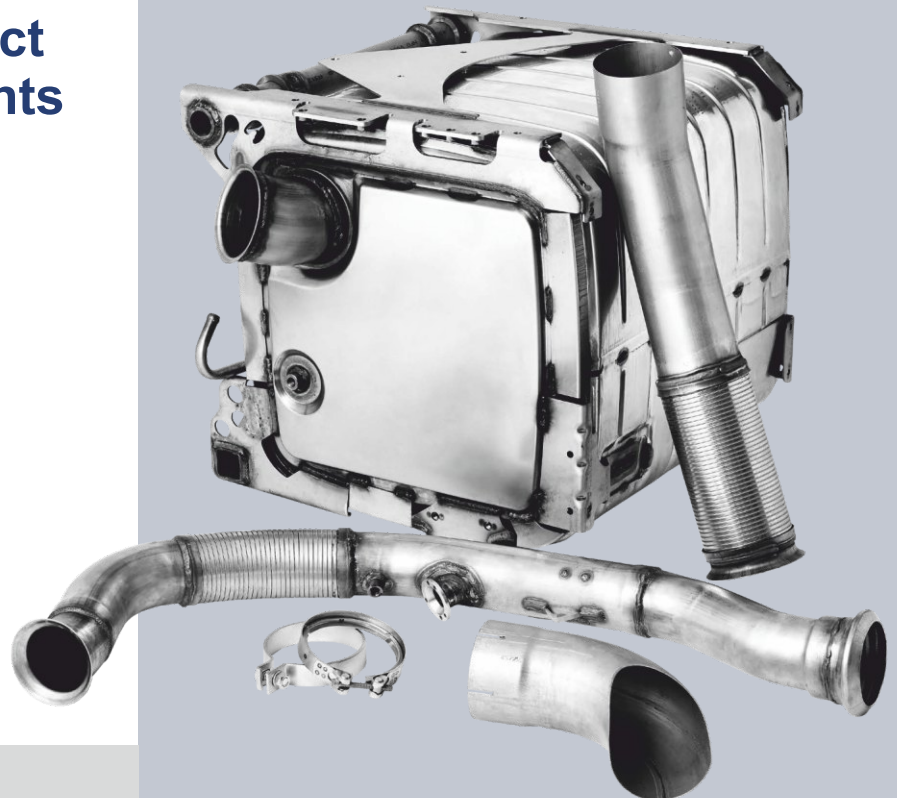

## Choose New Dinex Direct Euro IV & V Replacements
